PROGRAMME REPORT

Name of the Programme: One-week Faculty development Program on Exploring new Horizons in Pharmacology drug discovery and development

Date: 10/02/2020 to 15/02/2020.

Details of the Resource Person

- Name: Dr. A. Rama Mohan, M. Pharm. Ph.D.
- Designation: Professor
- Department: Pharmacology
- Organization: MNR College of Pharmacy, Sangareddy
- Email Id: abbavarama@gmail.com
- Contact Number: 9642913399

- Name: Mr. V. Ravi Kumar,
- Designation: Associate. Professor
- Department: Pharmacology
- Organization: MNR College of Pharmacy, Sangareddy
- Email Id: vemulapalli234@gmail.com
- Contact Number: 9959521349

Objectives: MNR College of Pharmacy had Successfully organized One Week Faculty Development Programme on Exploring new Horizons in Pharmacology drug discovery and development. The main objective of the program was to focus on the most recent research advancements in drug repurposing. Since drug development involves multistage process which is time and money intense, this type of innovative ideas and novel concepts will expedite the drug development process. The repurposed drug is already qualified initial phases of screening, and this makes the new objective more feasible and significantly reduces the cost of development.

PRINCIPAL
MNR COLLEGE OF PHARMACY

Topics covered:

- Stages of drug discovery and development include
- Target identification
- Target validation
- lead identification
- lead optimization
- Product characterization
- Approaches to drug repurposing
- In silico drug repurposing
- Drug repurposing in various diseases

Outcome of the Programme:

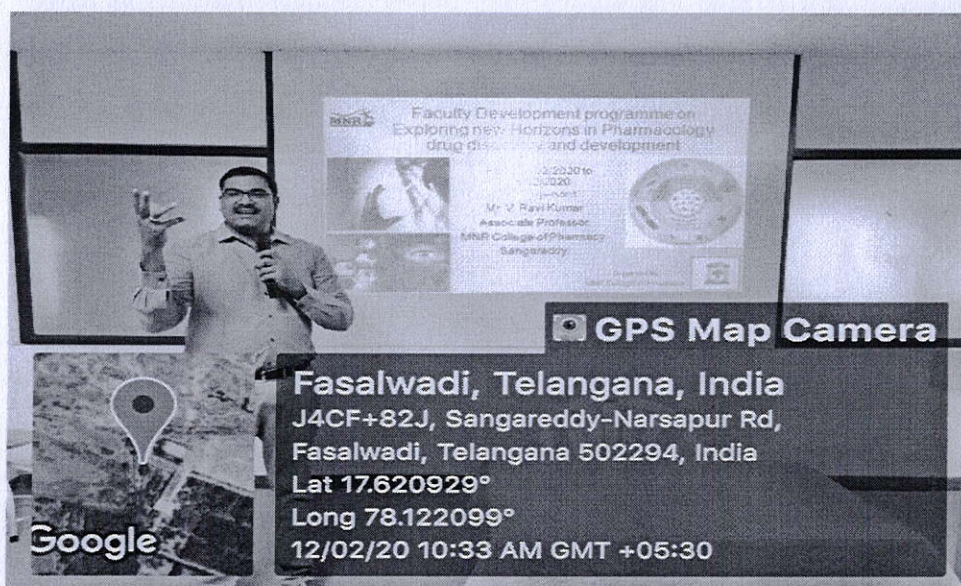

The responses from the participants were overwhelming. The participants expressed that it is a good opportunity for them, and the information given is very informative and effective. The process of drug development starts from finding a lead molecule to implementation in the market. But this process is a big scenario which utilizes lot of cost including money and facility and takes very long time of around fifteen years. Repurposing is a vital concept which can overcome these tedious tasks and can boost the drug development process to a significant level. The current repurposing methods include statistical screening of the approved drug and to find the good binding target using in silico methods. Since this requires the use of wide library of compounds and data more feasible techniques for repurposing must be developed. The influence of target is another possibility which is not much explored. The original and repurposed target may have a significant similarity owing to the good binding drug. This aspect must be exploited at molecular level which can further make the drug repurposing process more efficient and feasible.

Number of Participants: 45

ABOUT THE COLLEGE

MNR College of Pharmacy at Sangareddy, one-hour drive away from hi-tech city, is one among the 78 top grade institutions run across the globe by MNR Educational Trust. The trust was formed in 1974 by **Sri. M. N. Raju** with the noble aim to shape the student into proud citizen of this great nation, laying emphasis on honing their intake skill and addressing their psychological and spiritual needs. **Sri. M. S. Ravi Varma** the dynamic Vice-chairman of this trust adds a perfect blend of modern approaches required to achieve the goal. The college possess state of the art laboratories providing the best platform for training the students to become a scientist, industrial or community pharmacist. The trust entered MOU with various industries in and around Hyderabad, as well as with foreign universities to have students and faculty exchange programme, combined research activities and e-lectures. As the institution is in a campus of 120 acres area which consists of medical educational complex with 680 bedded multi-specialty hospitals, the students receive unmatched clinical experiences.

MNR COLLEGE OF PHARMACY

For Whom

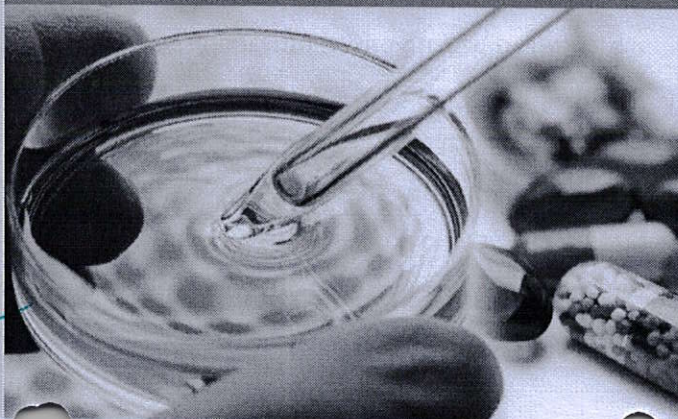

The FDP is designed for teachers and researchers working in universities, colleges, professional institutes and training centers of industrial organizations. It is especially suited for educators seeking to strengthen their understanding of as well as gain exposure to advanced topics, learn and experiment with effective pedagogical techniques and gain familiarity with essential aspects of carrying out research studies.

Certification

Registered candidates will get the certificate of participation. Award of the certificate is subject to the participant meeting the necessary attendance required and satisfactory performance in the FDP

About the Programme

It is a one week Faculty Development Program. This Program aims at enhancing the academic and intellectual environment in the institution by providing faculty members with enough opportunities to pursue research.

Objectives of Programme:

The main objective of the program is on the most recent research advancements in drug repurposing. Since drug development involves multistage process which is time and money intense, this type of innovative ideas and novel concepts will expedite the drug development process. The repurposed drug is already qualified initial phases of screening, and this makes the new objective more feasible and significantly reduces the cost of development.

**REPORT OF TRAINING SESSION FOR NON-TEACHING FACULTY ON
“STANDARD METHODS FOR PREPARING SOLUTIONS”**

Professional development program was conducted at the MNR College of Pharmacy on 28/12/2019 for Non-Teaching Faculty of MNR College of Pharmacy on “Standard Methods for Preparing Solutions in Laboratories”.

The major objective of the program is to knowledge and train the non-Teaching faculty to follow standard procedures in preparation of various solutions in laboratories. The resource persons, Dr. G. Saravanan, Professor, Department of Pharmaceutical Chemistry has explained the process of preparations of various solutions that are require in laboratories during performing the various experiments. He has explained importance of proper preparation of solutions for achieving the accurate values for various analytical techniques. The resource persons have demonstrated the procedures for proper dilutions and the correct process of weighing the samples for proper solubility. The resource person enlightened the participants with various methods for easy ways for remembering certain producers. All the non-Teaching faculty have observed and learned the proper technique for preparation and preserving all types of solutions and focused on taking the necessary precautions to ensure the good working conditions.

PROGRAMME REPORT

Name of the Programme: A One-week Faculty development Program on Innovation, Learning and Research in Pharmaceutical sciences.

Date: 14/10/2019 to 19/10/2019.

Details of the Resource Person

- Name: Dr J. N. Suresh Kumar
- Designation: Principal and Professor
- Department: Pharmaceutics
- Organisation: Narasaraopeta Institution of Pharmaceutical Sciences
- Email Id: jnskumarpharmacy@rediffmail.com
- Contact Number: 9848151522

- Name: Dr. P. Subhash Chandra Bose
- Designation: Professor
- Department: Pharmaceutics
- Organisation: MNR College of Pharmacy
- Email Id: penjurisubhash@gmail.com
- Contact Number: 9848033974

Objectives: MNR College of Pharmacy had successfully organized One Week Faculty Development Programme on Innovation, Learning and Research in Pharmaceutical sciences. The main objective of the program was to enhance and polish the research work carried out in the field of Pharmacy. The delegates were invited to learn the new innovations and research strategies in the field of pharmacy.

Topics covered:

- CPCSEA Guideline to conduct experiments on animals.
- An insight to pharma GMP
- Filing a patent application

PRINCIPAL
MNR COLLEGE OF PHARMACY

- Role of biopolymers
- Entrepreneurship in pharmacy
- Publication ethics
- Tailoring of bio-macromolecules for smart drug delivery
- Writing a manuscript for patent
- Strategies for innovation in research
- Artificial intelligence-based designing of novel AMPS

Outcome of the Programme:

The responses from the participants were overwhelming. The participants expressed that it is an opportunity for them, and the information given is very informative and effective. The process of adoption of open innovation in the pharmaceutical industry through a case study and analysis the empirical findings by framing it inside the current theoretical framework. One of the delegates stated that it has provided the forum for academicians and clinical professionals to exchange their knowledge and state of art of aforesaid areas. This programme has provided deeper insight and knowledge to the participants about the valuable teaching development through recent innovations and research in pharmaceutical sectors.
