FACULTY DEVELOPMENT PROGRAMME ON

"NANOTECHNOLOGY IN DENTISTRY AND SUTURING TECHNIQUES

5TH SEPTEMBER 2020

Institution : MNR Dental College & Hospital

Guest speaker : Dr. Neeraja Turagam

Organised by : Faculty Developmet committee

Audience : Faculty of MNR Dental college & Hospital

Description of the Activity: The program was conducted on 5TH september 2020. The event started with an welcome note by Dr. K.A.Ravi Varma prasad and inauguration by Dr.Sujatha Gopal; Principal, Professor & HOD Department of conservative and endodontics; MNR Dental college at 9.00 am. This is followed by a detailed PowerPoint presentation by the guest speaker Dr. Neeraja Turagam who spoke about the nanodentistry followed by Dr. Durga Prasad Mudrakola on the topic "Suturing and suture techniques" from 12.30 am to 1.30 pm followed by a lunch break for half hour. He further spoke about the importance of suturing in periodontics and its recent advances such as the use of tissue adhesives modified suture materials with antibiotic impregnations and its need in periodontics today. He also emphasised on the need of microsutures and suturing techniques. From 1.30 am to 1.00 pm all queries were cleared. It was followed by group discussion with the staff and students. Later, Dr. Sujatha Gopal; addressed the gathering. The session was concluded with a vote of thanks.

Conclusion: suturing techniques form an integral part of post surgery in periodontics it avoids bleeding and provides comfort to the patient in modern day newly advanced suturing techniques provide better healing and esthetic advantage to the patient. This course highlighted the importance of improved treatment modalities in periodontics.

FACULTY DEVELOPMENT PROGRAM

COME LET'S BECOME POSITIVE DENTISTS IN THIS PANDEMIC SITUATION

ACTIVITY REPORT- 28th MAY 2021

TITLE OF THE PROGRAMME: COME LET'S BECOME POSITIVE DENTISTS IN THIS PANDEMIC SITUATION.

Name of the speaker: Dr. Harish Tenneti

Audience: Faculty of MNR Dental college and KIMS dental college, Amalapuram.

Conducted by: Committee for Faculty Empowerment Strategies

Date: 28/05/2021

Method of content delivery: A PowerPoint presentation containing detailed description.

Objective: The objective of the presentation was to motivate the dentists through this pandemic situation and also the scope of dentistry.

Brief discussion: The session was started with an inaugural speech by vice principal, Dr. Ravindra. Introduction to the session was given by Dr. G. Harsha, Professor & HOD. Dr. Haritha, postgraduate, anchored the program followed by moderation by Dr. Aditya Mohan, associate professor, Dept. of oral & Maxillofacial surgery, which included the speaker and Q & A session which was answered by the speaker. The session was ended with a vote of thanks by Dr. Harsha, professor and HOD, Dept. of Oral & Maxillofacial surgery.

Conclusion: The course discussed various aspects of dentistry, steps after BDS and how to manage during this pandemic and how to have a positive view required during this pandemic.

BIOPRINTING

Three dimensional(3D)bioprinting is the utilization of 3D printing techniques to combine cells, growth factors, and biomaterials to fabricate biomedical parts that maximally imitate natural tissue characteristics.

Generally 3D bioprinting utilizes the layer by layer method to deposit materials known as bioinks to create tissue like structure that are later used in medical and tissue engineering fields.

New thoughts:

- ▶ Making dentistry FAMOUS
- ▶ Applying knowledge improve work
- ▶ Creating fields for youngsters
- ▶ Why not everybody using it?? Innovate
- ▶ Good and affordable investigations
- ▶ Forceps, implants, lasers, endoscopy
- ▶ Bed side tests for oral cancer
- ▶ BMP, PRP, BONEGRAFTING
- ▶ ROBOTIC, DRONES ETC.....
- ▶ STEM CELLS , BIOPRINTING
- ▶ INSURANCE

COMMITTEE FOR FACULTY EMPOWERMENT STRATEGIES

WORKSHOP ON "UV STERILISATION"

12th AND 13th FEBRUARY 2021

Institution: MNR Dental College & Hospital

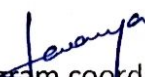

Resource Person: Dr. Aditya Mohan; MNR Dental College, Sangareddy.

VENUE: Lecture hall 2, MNR Dental College and Hospital

Content delivered: The role of effective training in professional development is very significant. The global health-threatening crisis from the COVID-19 pandemic, caused by the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), highlights the scientific and engineering potentials of applying ultraviolet (UV) disinfection technologies for biocontaminated air and surfaces as the major media for disease transmission. UV disinfection is an energy-based process, where the inactivation ratio is determined by the applied UV dose via the disinfecting unit. The UV dose (mJ cm^{-2}) is calculated by the delivered irradiance or fluence rate to microbial cells (mW cm^{-2}) multiplied by the exposure time (s). Thus, for UV-induced reactions, the most accurate fashion to report the kinetic data is as a function of UV dose rather than time. The disinfection of biocontaminated air and surfaces could be assumed as more straightforward and predictable applications of UV radiation, as compared to water treatment. However, to achieve a valid inactivation value, e.g., 99.99%, by a UV air or surface disinfectant, several factors are involved, which can be grouped into two categories: inherent microbial characteristics and target medium characteristics.

Audience: Teaching and non-teaching staff.

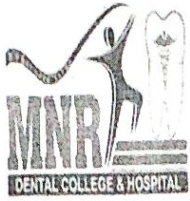

Description of course: The program was conducted on 12th and 13th February 2021. The event started on 12th morning with a welcome note by Dr. Ravindra S.V Vice Principal, Professor & HOD Department of Oral Medicine & Radiology; MNR Dental college at 9.00 am. This was followed by a detailed PowerPoint presentation by the Resource Person Dr. Aditya Mohan on the topic "UV Sterilisation" from 10.00 am to 12.30 pm followed by a tea break for 15 mins and queries were cleared. It was followed by group discussion with the staff. The programme was continued on 13th February for the non-teaching staff. Later, after completion of the programme vote of thanks was given by Dr. B. Anitha.

COMMITTEE FOR FACULTY EMPOWERMENT STRATEGIES

TRAINING PROGRAMME ON STERILIZATION & DISINFECTION

Activity report

NAME OF THE PROGRAMME: STERILIZATION & DISINFECTION

DATE: 24-10-2020

JUSTIFICATION: The main concepts of STERILIZATION & DISINFECTION are important for routine clinical procedures. Safety issues & duration of sterilisation cycle in clinical settings have main role in proper sterilisation. Testing Procedures are key for evaluation of effectiveness of complete sterilisation.

CONDUCTED BY: Faculty Development Committee

NUMBER OF SUPPORTING STAFF ATTENDED: 06

REPORT OF THE ACTIVITY: The programme was conducted ON 24TH OCTOBER, 2020. The session began with a welcoming note by Dr. Suman. The speaker of the programme was Dr. Aditya Mohan. The Speaker addressed the supporting staff and welcomed their presence. A power point containing detailed description of sterilisation & Disinfection

.Queries of the delegates were welcomed and doubts answers of the topic were discussed by the organising committee. The session was concluded by Faculty Development Committee.

COMMITTEE FOR FACULTY EMPOWERMENT STRATEGIES

TRAINING PROGRAMME ON

COVID 19 PROTOCOL- ACTIVITY REPORT

NAME OF THE PROGRAMME: TRAINING PROGRAMME ON COVID 19 PROTOCOL

DATE: 20-11-2020 - -

JUSTIFICATION: Coronavirus disease (COVID-19) is an infectious disease caused by the SARS-CoV-2 virus. Most people infected with the virus will experience mild to moderate respiratory illness and recover without requiring special treatment. However, some will become seriously ill and require medical attention. Older people and those with underlying medical conditions like cardiovascular disease, diabetes, chronic respiratory disease, or cancer are more likely to develop serious illness. Anyone can get sick with COVID-19 and become seriously ill or die at any age. The best way to prevent and slow down transmission is to be well informed about the disease and how the virus spreads.

CONDUCTED BY: Faculty Development Committee

NUMBER OF SUPPORTING STAFF ATTENDED: 8

FACULTY DEVELOPMENT COMMITTEE

DEMONSTRATION OF PPE KIT- PROGRAMME SHEET

DATE	TIME	TOPIC	SPEAKER
20.1.21	2.00-3.00PM	DEMONSTRATION OF PPE KIT	DR. Rupa Rani

NAME OF THE PROGRAMME: DEMONSTRATION OF PPE KIT

JUSTIFICATION: Personal protective equipment (PPE) is used to protect healthcare workers (HCWs) and patients from healthcare associated infections. Protection afforded by PPE relies on the application and removal techniques. Outbreaks of infectious diseases such as Severe Acute Respiratory Syndrome, H1N1 influenza and Ebola Virus Disease have highlighted how poor PPE removal technique exposes HCWs to infectious agents.

Personal protective equipment may include items such as gloves, safety glasses and shoes, earplugs or muffs, hard hats, respirators, or coveralls, vests and full body suits. All personal protective equipment should be safely designed and constructed, and should be maintained in a clean and reliable fashion. It should fit comfortably, encouraging worker use.
