CAREER CYCLE

The diagram illustrates the Career Cycle as a circular process with four main quadrants: **Know Yourself** (red), **Explore Options** (yellow), **Get Focused** (green), and **Take Action** (blue). The center is labeled **Career Development**. The quadrants are further divided into sub-steps: **Know Yourself** includes Values, Interest, Strengths, and Talents; **Explore Options** includes Occupational research, Industry trends, and Career options for degree; **Get Focused** includes Goal setting, Decision making, and Action planning; **Take Action** includes Job search trial, Gain experience, and Connect with employers.

GOAL SETTING

The diagram shows the SMART criteria for goal setting: **S**PECIFIC, **M**EASURABLE, **A**TTAINABLE, **R**ELEVANT, and **T**IMELY. A hand is shown writing on a chalkboard. The criteria are categorized into **short term** and **long term** goals.

Step 1: Pick a Topic

Choose something you are curious about or interested in. Make sure it's a topic you can explore and find information about.

Step 2: Read About It (Literature Review)

Check what others have already written about your topic. This helps you understand what is missing or what more you can add.

Step 3: Ask a Question

Think of a question you want to answer through your research. For example: "Why do people get stressed at work?"

Dr Kapil Dev is presenting

WORKSHOP ON SCALE DEVELOPMENT (QUESTIONNAIRE DEVELOPMENT) AND RESEARCH PAPER WRITING

Key Benefits:

- **Practical Learning:** Hands-on experience with expert guidance.
- **Master Key Skills:** Gain expertise in questionnaire development and academic writing.
- **Tailored for Researchers:** Ideal for graduate students, early-career researchers, and professionals seeking to refine their research approach.

6-Day (6-Hours)Workshop on Scale Development (Questionnaire Development)

Objective: Learn how to develop reliable measurement scales and effectively write research papers.

Workshop Overview:

Creating reliable measurement scales and writing strong research papers are key skills for producing impactful research. This workshop will guide you through the process of developing reliable and valid scales, from conceptualizing constructs to refining questions for data collection. Additionally, you will gain practical insights into writing research papers, focusing on structure, clarity, and effective communication of your findings. Whether you are a student, researcher, or professional, this six-day workshop will equip you with the knowledge and hands-on experience to develop robust measurement tools and write research papers that contribute meaningfully to your field.

Workshop Highlights:

Day 1: Understanding Constructs and Question Design

- Learn how to define constructs clearly.
- Explore techniques for generating diverse items and question types.

Day 2: Refining Items and Pilot Testing

- Choose effective items and organize questions logically.
- Run pilot tests to gather feedback for improvements.

Day 3: Validity, Reliability, and Finalization

- Conduct reliability and validity tests.
- Refine the questionnaire and prepare for final data collection.

Day 4: Planning and Structuring

- Understanding research paper goals and audience.
- Crafting objectives, questions, and an outline.
- Conducting and organizing a focused literature review.

Community Hands - Only CPR
(Cardiopulmonary Resuscitation)

On 19th, 20th & 21st January 2025

An exclusive free Three -day event in Hyderabad promoting Bystander Help in “Saving Lives” during out-of-hospital sudden cardiac arrests, on the occasion of Gandhi Medical College Alumni completing 25 years of Resuscitation Training in India.

- CPR stands for Cardio-pulmonary resuscitation
- CPR is a life saving procedure to revive the person from sudden stoppage of heart (Sudden Cardiac Arrest)
- Community CPR aims to create awareness among general public about bystander help in cases of sudden collapse & will the train common person about Hands only CPR i.e how to do Chest Compressions
- Hands only CPR is a simple but an effective way to revive heart beat in cases of sudden cardiac arrest.
- Hands only CPR is crucial in assisting revival till medical help arrives
- This training will introduce the Automated External Defibrillator (AED), which is a portable computerized instrument which provides a “shock” and restores normal heart rhythm
- Timely emergency help with hands-only CPR may save the life of a family member, friend or a stranger on the street

Venue :
GMC ALUMNI EDUCATION CENTER,
Gandhi Medical College & Hospital Campus,
Hyderabad, Telangana 500 003.

TIME :
On 19th January 2025 - 2:00PM to 6:00PM
On 20th & 21st January 2025 - 9:00AM to 6:00PM

Gandhi Medical College Alumni Association
Gandhi Medical College Global Alliance
Janahitha Seva Trust

Disclaimers

- ▲ This is only a brief community-awareness CPR presentation and not a full training course.
